| <b>JOB CODE: 30087</b> | <b>PAY GRADE: 15</b> | <b>PAY RANGE: \$43,200 - \$69,120</b> |
|------------------------|----------------------|---------------------------------------|

### GENERAL DESCRIPTION

Under the general direction of the Biometric Records Manager, performs skilled technical work in comparison and identification of fragmentary friction skin impressions, the entry and verification of latent prints in the AFIS computer, and development of latent friction skin impressions. Incumbents may be required to locate and preserve latent impressions by the use of powders, chemicals and other development techniques following recognized rules and procedures. Work is reviewed through observation and results obtained.

A member in this job classification spends at least 65 percent of their time performing duties that involve the collection, examination, preservation, documentation, preparation or analysis of human tissues or fluids or physical evidence having potential biological, chemical or radiological hazard or contamination, or uses chemicals, processes, or materials that may have carcinogenic or health-damaging properties in the analysis of such evidence, or be the direct supervisor of one or more individuals having such responsibility, in accordance with F.S. 121.0515.

**SUPERVISES OTHERS:** No

### ESSENTIAL FUNCTIONS AND RESPONSIBILITIES

- Evaluates the quality of latents submitted and developed to determine if they are of sufficient value for comparison. Analyzes diverse items submitted by various criminal justice agencies and other state agencies for the detection, preservation and identification of latent prints. Includes the utilization of highly technical processes, both chemical and mechanical for detecting invisible impressions on widely varied surfaces; compares fragmentary prints with known prints and makes the critical determination of whether prints are from the same individual. Examines deceased hands, fingers and pieces of skin for the purpose of establishing the positive identification of the deceased person. Prepares reports on results of examinations conducted;
- Presents expert testimony in criminal courts as to the results of latent print comparisons; qualifies each time in court as an expert witness, providing the courts with an opinion based on observable data and the incumbent's proven forensic judgment. Secures the credibility of testimony under cross examination; prepares court exhibits and preserves by photographic processes material potentially significant for analysis and court preparation at the direction of the courts;

# Pinellas County Sheriff's Office

*"Leading The Way For A Safer Pinellas"*

- Instructs criminal justice interns in the collection and preservation of latent fingerprints, physical evidence, and in the recording of fingerprints and footprints;
- Participates in Sheriff's Office recruitment and community relations activities as directed.

This list is not intended to be all-inclusive and you may not be responsible for every item listed. The employer reserves the right to assign additional functions and responsibilities as necessary.

## QUALIFICATIONS

- High School Diploma or G.E.D.
- Certification in the discipline of latent prints is preferred
- Or coursework in the science of fingerprints or experience in the field of forensic science
- Four (4) years' experience as a fingerprint tech or related field
- A written comprehensive practical skills evaluation, to include comparison and identification of latent prints to known prints will be administered
- Must possess a valid Florida driver's license

## KNOWLEDGE, SKILLS, AND ABILITIES

- Knowledge of procedures and techniques used in latent print examination and comparison;
- Ability to recognize matching and non-matching patterns and prints on an AFIS terminal, as well as during manual comparison using fingerprint magnifiers
- Knowledge of courtroom procedures and legal requirements involving the use of fingerprints as evidence, and as testifying as an expert witness;
- Ability to learn the intricate detail of minutiae plotting on the latent entry terminal of the AFIS computer;
- Ability to lift latent prints from a variety of surfaces using a variety of professional techniques
- Ability to concisely and accurately identify and compare prints, including old or fragmented prints;
- Ability to maintain a professional bearing and attitude at all times while on the job with supervisors, public, and peers;
- Time management and organizational skills
- Ability to operate equipment and instruments utilized in meeting job requirements and operational responsibilities

# Pinellas County Sheriff's Office

*"Leading The Way For A Safer Pinellas"*

- Ability to communicate effectively both verbally and in writing
- Ability to perform all functions of the job classification without posing a direct threat to the health or safety of other individuals in the workplace
